⊙ALVARADO
SU2000
Optical Turnstile

The SU2000 barrier-free optical turnstile is a great option for access control applications in an environment where an attendant is present. Featuring a highly intelligent optical detection system, the SU2000 has an extremely compact footprint making it perfect for applications where space is at a premium. The SU2000 barrier-free optical turnstile has a very compact cabinet that saves valuable floor space. Its slim profile, attractive, brushed finish stainless steel cabinet, and solid surface lid create a very upscale look suitable for nearly any environment. Both standard and handicapped passage width configurations have the same cabinet dimensions.
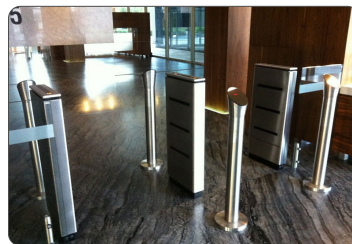

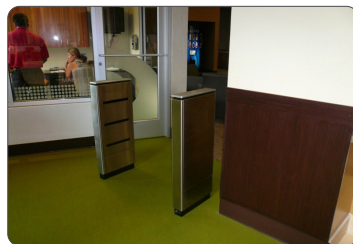

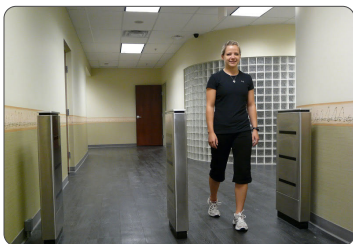

Common Applications
• Time and attendance integration
• Employee and visitor access control
• Single-direction control and/or one-way exiting
• Tailgating
• Membership verification

Why Alvarado?
Alvarado is America's leading entry control products manufacturer. Founded in 1956, Alvarado turnstiles and gates are installed in thousands of locations throughout the world. Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

Key Features

No Barriers:	Barrier-free design utilizes optical sensors to monitor passage through the lane resulting in very high throughput rates.
Stylish Design, Small Footprint:	Compact cabinets look great, are unobtrusive and provide access control where space is at a premium.
Superior Optical Detection:	Integrated sensors monitor passage, detecting unauthorized access and "tailgating" behind an authorized user.
Clear Direction to Users:	Illuminated status lights on top of the cabinet and audible alerts convey lane status and alarm conditions
Alarm Contact Outputs:	Alarm contacts may be integrated with remote systems to provide alarm notifications.
Easy Systems Integration :	Easily integrates with most access control and safety systems.

Available Models

Standard - 28" wide passageway
ADA - 36" wide passageway

Options

A number of options and a selection of materials and finishes are available.

Complementary Products

Custom barriers are ideal companions to our optical turnstiles. They can fill gaps in your installation, direct pedestrians and provide an integrated appearance.

Certifications

The SU2000 optical turnstile CE marked.
