

## ALVARADO

### CSG

## Pedestrian Gates

The CSG and SSG are self-closing gates that can be field-configured to open either bi-directionally or in a single direction. The gates open easily with minimal force. A reliable, gravity-assisted, closure mechanism brings the gate arm back to the home position. Both the CSG and SSG are similar in function, and options — differing only in availability as Stainless Steel (SSG) or a bright Chrome finish (CSG).

### Common Applications

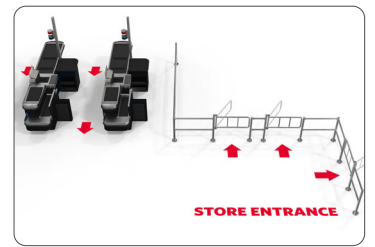

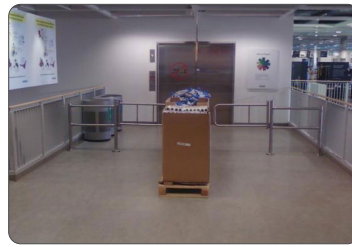

- Grocery and retail stores
- Warehouses
- Entertainment facilities
- Airports

### Why Alvarado?

Alvarado is the leading manufacturer of waist high turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world. Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

## Key Features

Field Configurable Swing Direction:	The unique design of the CSG and SSG crowd control gates allows field configuration of the swing operation
Versatile Swing Configuration:	The gates can be configured to swing 90 degrees in either direction; or configured to operate bi-directionally (180-degree swing)
Wide Opening:	Provides a wide 36" passage width
Rugged Closure:	The gates have a rugged gravity closure mechanism that smoothly closes the gate – whether configured for a single direction, 90-degree, swing pattern, or a bi-directional, 180-degree, swing pattern
Configurable Swing:	Field-configurable to swing in a single direction or bi-directionally
Smooth Closure:	Reliable, gravity-assisted closure closes the gate smoothly

## Available Models

CSG  
SSG

## Complementary Products

Our post and rail, as well as our turnstiles are ideal companions to our pedestrian gates. They can fill gaps in your installation, direct pedestrians and provide an integrated appearance

## Options

Post Outlets - Optional rail outlets can be added to the gate hinge post to accept Alvarado 1.75" railing. Post outlets may be ordered factory-installed.

Latch and Latch Post - Addition of an optional latch and latch post allows the gate to be secured when closed
