

ALVARADO CLST Full Height Turnstile

The CLST full height turnstile includes a visually appealing clear side panel while still providing the same functionality of the MST model — with a less industrial appearance. Unlike the competitive model, the integral sections of the CLST full height turnstile are complete assemblies, not individual parts that must be bolted together during installation. This creates a solid, secure, and structurally sound product. Details matter, especially when manufacturing a full height turnstile to stand the test of time.

Common Applications

- Perimeter control and fence line security
- Time and attendance integration
- Employee and visitor access control
- Unmanned point of entry
- Single-direction control and/or one-way exiting
- Inside and covered outside locations

Why Alvarado?

Alvarado is the leading manufacturer of waist high turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world. Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

Key Features

Clear Side Panel:	Crystal clear side panels in an aluminum frame
Barrier Sections:	Fully welded rotating and barrier sections
Environmentally Compatible:	Suitable for indoor and covered outdoor environments
Precision Fit:	Splined connection between the rotating section and top channel assembly provides a precision fit that minimizes play
Top Channel Cover:	Stainless steel top channel cover
Surge Protection:	Full-featured turnstile controller protects against electrical surges and is conformal coated for enhanced weatherization protection

Available Models

CPST-6X (Electrically controlled)

Options

Dozens of options and a selection of materials and finishes are available

Complementary Products

MSG pedestrian security gates often accompany full height turnstiles to facilitate delivery of material or bulky items.

Certifications

The CLST tandem full height turnstile is independently tested and certified by UL, conforming to both UL and CSA standards. It is also CE marked.
