

## ALVARADO SU350 Optical Turnstile

The SU350 retracting barrier wing optical turnstile features the latest optical detection technology, and quick and precise motorized panel operation. The SU350 wing barrier optical turnstile has a sleek, brushed finish stainless steel cabinet and solid surface lid, which look great in any installation environment.

The footprint of the SU350 makes it an excellent choice for large lobbies with significant floor space. The optical turnstile has crystal clear bi-parting panels that retract fully into the cabinets on the authorization. The panels can be etched with corporate logos to further enhance the installation.

### Common Applications

- Time and attendance integration
- Employee and visitor access control
- Single-direction control and/or one-way exiting

### Why Alvarado?

Alvarado is America's leading entry control products manufacturer. Founded in 1956, Alvarado turnstiles and gates are installed in thousands of locations throughout the world. Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

**Key Features**

Fast Moving Motorized Barrier Arms:	Crystal clear bi-parting panels/wings
Reliable & Quiet Operation:	Highly intuitive LED illuminated user graphics embedded in turnstile lid
Space Saving Center Cabinet Design:	An optional floor-saver platform eliminates the need for anchoring and trenching through the floor.
Various Passage Widths:	Create additional passage lanes by adding a single shared cabinet
Superior Optical Detection:	Handicapped passage width lanes available
Crawl Detection:	Slim cabinets allow optical turnstile use in compact space

**Available Models**

SU3500 - Single 22" Wide Lane (2 cabinets)  
 SU3500-A - Single 36" Wide Lane (2 cabinets)

**Options**

A number of options and a selection of materials and finishes are available.

**Complementary Products**

Custom barriers are ideal companions to our optical turnstiles. They can fill gaps in your installation, direct pedestrians and provide an integrated appearance.

**Certifications**

The SU3500 optical turnstile is independently tested and certified by LA Testing Labs. It is also CE marked.
