LC100

Fast Turn

Waiste High Turnstile

Applications:

The LC100 FastTurn waist high turnstile is one of the best selling tripod turnstiles on the market. With installations at Six Flags, Madison Square Garden, Hershey Park and many more, the LC100 has solidified its spot as one of the most rugged and trustworthy waist high turnstiles available because of its low maintenance design and its highly attractive price point.

The LC100 integrates with virtually all access control software and hardware via a momentary dry contact and can be fitted with a variety of options including counters, indicator lights, key overrides, electronic locking modules, and more. When simplicity, affordability, and dependability are important, companies choose the Hayward Turnstiles LC100 every time.

Features:

- Classic and functional design for secure operations
- Heavy-duty steel locking bars, cam, and roller assemblies
- Stainless steel arms and lid
- Single-direction or bi-directional passage
- Self-centering control head with hydraulic shock suspension
- Low maintenance with self-lubricating components

About Hayward Turnstiles:

Hayward Turnstiles has over 50 years of expertise in quality manufacturing of precision aircraft parts and reliable turnstiles. Our factory, in Milford, CT, is AS9100 Certified to aerospace standards resulting in superior turnstiles. Engineered to industrial grade specifications, they are durable and built tough for long lasting performance. Proudly made in the USA, we distribute worldwide with installations across the globe.
