

SG100 SwingGate ADA

Applications:

Handicap gates provide authorized access for easy entry and/or exit. They restrict traffic, provide handicap accessibility, and are frequently used as an access point for hand trucks, carts, and deliveries. Popular applications also include retail stores, schools, libraries, cafeterias, and health club facilities where inexpensive reliable security is required. Our SwingGates are designed to be paired with our matching turnstile models and can be configured to offer different levels of functionality based upon your needs and budget.

Features:

- Stainless steel post and gate tubing (2" diameter) with rounded corners
- Heavyweight stainless base plate (1/4" thick)
- Interior or exterior use
- 36" ADA clear opening
- One-way swing – 90 degree swing
- Decorative baseplate flange cover
- Self-closing, heavy-duty hinge with adjustable closer
- Includes matching stop post with strike plate

About Hayward Turnstiles:

Hayward Turnstiles has over 50 years of expertise in quality manufacturing of precision aircraft parts and reliable turnstiles. Our factory, in Milford, CT, is AS9100 Certified to aerospace standards resulting in superior turnstiles. Engineered to industrial grade specifications, they are durable and built tough for long lasting performance. Proudly made in the USA, we distribute worldwide with installations across the globe.
