

HT440

Wide Passage

Full Height Turnstile (Single)

Applications:

The SecureTurn HT440 couples maximum entrance and perimeter security with a wider passage width. The HT440 features tamperproof construction, floor to ceiling security, and can integrate with virtually all access control hardware and software. This full height turnstile can even be outfitted with numerous options and add-ons to further align it with your specific access control project needs.

Features:

- Tamper proof, rugged design
- Configurable for right or left handed entry direction
- Fully welded exterior components
- Heavy-duty lifetime construction
- 3 free safety sleeves with every HT440 purchased

About Hayward Turnstiles:

Hayward Turnstiles has over 50 years of expertise in quality manufacturing of precision aircraft parts and reliable turnstiles. Our factory, in Milford, CT, is AS9100 Certified to aerospace standards resulting in superior turnstiles. Engineered to industrial grade specifications, they are durable and built tough for long lasting performance. Proudly made in the USA, we distribute worldwide with installations across the globe.

Get in touch with us for expert advice, design assistance, project review, free quotes and for help with your security needs.

HT440 Specifications

The SecureTurn HT440 is the perfect access control choice for when you are looking for maximum security levels coupled with a wider passage width. The HT440 is often paired with our matching HTG or HTG-M full height gates to provide a comprehensive, ADA compliant entry solution.
