

## ALVARADO SW500 Crowd Control Gates

The SW500 is a stylish, motorized pedestrian gate that provides entry or exit control. The gate includes a front motion sensor that opens the gate as patrons approach. A rear presence sensor detects objects in the gate opening swing path and provides an audible warning notification. The SW500 can also be activated by using a remotely installed push button.

### Common Applications

- Grocery Stores
- Retail Stores
- Entertainment Venues
- Health Club/Recreation Centers

### Why Alvarado?

Alvarado is the leading manufacturer of waist high turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world. Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.
