

ALVARADO EDC-E-6X Waist High Turnstile

Alvarado waist high turnstiles are installed in thousands of locations worldwide. Used for bi-directional access control, crowd control, and patron counting, the EDC comes in square end and bullnose end cabinet styles in both standard and extended arm lengths.

The EDC is Alvarado's most popular waist high turnstile. This rugged, multi-purpose, turnstile can be used to provide bi-directional access control, to direct pedestrians, and / or count attendance. The EDC turnstile is designed to provide years of trouble-free operation, includes more standard features than competitor models and is, simply, America's best waist high turnstile value.

Common Applications

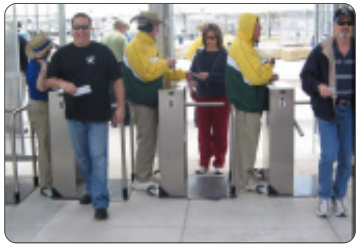

- Security and crowd control
- Employee access control
- Visitor access control
- Crowd control
- People counting

Why Alvarado?

Alvarado is the leading manufacturer of waist high turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world.
