

ALVARADO

MST

Full Height Turnstile

The MST is the most trusted, secure, and reliable full height turnstile available. It is installed in thousands of locations throughout the world and offers key product features and benefits only available from Alvarado. No other full height product comes close to the quality and performance of the MST.

The MST full height maximum security turnstile cuts no corners. Unlike competitive models that use individual parts that must be bolted together during installation, the integral sections of the MST are delivered fully welded, creating a solid and secure product. Details matter, especially when manufacturing a full height security turnstile that will stand the test of time.

Common Applications

- Perimeter control and fence line security
- Time and attendance integration
- Employee and visitor access control
- Unmanned point of entry
- Single-direction control / one-way exiting
- Inside and outside locations

Why Alvarado?

Alvarado is the leading manufacturer of waist high turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world. Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

Key Features

Full Featured Control Board (electric models):	Works with any access control or card reader without added relays, electronics or programming for an effortless integration.
Hydraulic Speed Control/Self-Centering:	Self-adjusting user pushing tension eliminates slamming and smoothly selfcenters the Roto, increasing user safety and extending equipment life.
Fully Welded Roto, Yoke & OV:	Welded construction (no bolts & fasteners) increases product strength, simplifies installation and produces a more attractive & secure turnstile.
Built-in Key Override Controls:	Quickly unlocks one or both directions for more flexible product use and easy authorized bypass access.
Pull Out Top Channel Cover:	Stainless Top Channel Cover may be removed horizontally, reducing the clear overhead space required for removal.
Easy Fail-Lock/Fail-Safe Configuration Change:	Simple change from fail-lock to fail-safe saves thousands of \$\$\$ versus competitors if a field change is required

Available Models

- MST-3 - (Manual)
- MST-6X - (Electrically Controlled)

Options

Dozens of options and a selection of materials and finishes are available

Complementary Products

MSG pedestrian security gates often accompany full height turnstiles to facilitate delivery of material or bulky items.

Certifications

The MST full height security turnstile is independently tested and certified by UL, conforming to both UL and CSA standards. It is also CE marked.
